# INFORMATION ABOUT OUR HYGIENE APPLICATIONS AGAINST COVID-19

We created the hygiene practices procedure to combat pandemic(Covid-19) and we started to apply these procedures.

We have established a "Crisis Management Team" in our hotel to carry out verification with contamination measures and hygiene standard adaptation.

We have prepared protocols covering cleaning and hygiene practices that will affect their processes for all departments.

We created checklists for departmental processes in line with circulars 6 and 8 issued by the Ministry of Culture and Tourism.

Our hotel will receive written information from our guests about their location in the past 14 days before arriving at the hotel, about any chronic ailments, and whether they had Covid-19 before.

Guests and employees who show any signs of disease will be isolated and transferred to the hospital under the control of the doctor.

Whether it's an employee, guests, visitor or supplier, the temperature measurements of all people, who is entering our facility are made with contactless thermometers and their records are kept.

Masks and gloves will be given to our guests who request at the reception.

We prepared a social distance plan to cover hotel common areas and made arrangements and markings in all areas where gathering may occur.

Boards with Covid-19 measures and the rules we have taken are announced by hanging on the common areas and routes of guests and employees.

We have placed disinfectants in all hotel areas that our guests and employees can easily reach.
